AI-Powered Legal Marketplace

Problem

Millions of people face legal issues without knowing where to turn. There is widespread distrust, lack of transparency, and misinformation.

Solution

A platform where users describe their legal issue to an AI, which then posts the case in a marketplace where verified lawyers submit offers. Simple, fast, and secure.

Key Features

- AI summarizes legal cases in natural language via WhatsApp or web.
- Smart matching with registered lawyers by specialty, urgency, and location.
- Verified lawyer profiles with ratings and direct contact.

Traction
