OUR SERVICES

✓ IMMERSIVE EXPERIENCES

At GRIFTIN we developed INMERSIAL, a software tailored to seamlessly incorporate immersive experiences into your business. Our platform enables the implementation of virtual reality (VR), augmented reality (AR), or mixed reality (MR), while providing real-time analytics on customer interactions with your products.

✓ IT STAFF AUGMENTATION

Our team consist of top-tier IT professionals specialized in software development, including: React, Angular, Java, .Net, Ruby on Rails, QA, Scrum, and more.

Easy to learn:
Plug and play. Friendly user.

Affordable price:
High-impact technology without large investments.

3D Tecnology accessible from any device:
Mobile app, laptop (cross platform) or 3D glasses.

✓ SOFTWARE ENGINEERING

We provide scalable, dependable, and high-performance software solutions, including digital transformation through cloud infrastructure, Office 365, bots, AI, and more.

WHY US?

Specialized team & international experience with a proven international track record

Integrated approach & tailored solutions

Cutting edge technologies & trends
