PART 4

OCTOBER 2017

When founded in 1952, the International and Comparative Law Quarterly was the only journal which offered the reader coverage of comparative law as well as public and private international law as well as European Union law. Since then it has maintained its pre-eminence amongst journals of its kind and it continues to offer practitioners and academics wide topical coverage without compromising rigorous editorial standards.

Membership of the British Institute of International and Comparative Law brings with it a subscription to the International and Comparative Law Quarterly, or it is available as a personal annual subscription from the distributor Cambridge University Press.
