Empowering progress through innovative tech solutions

Who We Are

Led by **Lucio Moya Farina** and **Pablo Gambetta**, our team brings **15+ years** of software-development experience. We specialize in cutting-edge solutions for **entertainment**, **education**, and **government**.

What we do

Design and develop of **tailored software solutions** for businesses, integrating the latest technologies, tools, and trends for mobile, web2, web3, and cloud applications. Through **innovation** we help our clients to reach their goals and solve their digital transformation needs.

What we offer

Mobile Application Development

- iOS and Android
- White label publication

Web applications development

- Cloud or local solutions

Application Services Development

- APIs or micro-services solutions

Blockchain developments

- DAPPs, Smart contracts, NFTs, Tokens

Why It Matters

Our **boutique software studio** combines agility with a personalized touch. Our flexible approach and commitment to delivering **high-quality software tailored** to each client's specific needs sets us apart. We invest in ongoing training for our teams, ensuring that we keep up with **cutting edge technologies**. Joining us, companies save expenses on building a dedicated in house IT team. Our ISO 9001:2015 certified software production process ensures efficient and reliable results.

We are Khem Labs

By transforming technology landscapes with tailored solutions we empower businesses to reach their full potential.

Say goodbye to generic, say hello to custom-made softwares.
