wootic

Who We Are

Wootic is not just a Software Factory. We are a **fusion of LegalFinTech expertise and innovative software development skills.** We provide comprehensive solutions that surpass the expectations of our clients.

Our Unique Proposition

One-Stop-Shop
Integrating technical, financial, and legal skills, we execute end-to-end projects. From the client's idea conception to a market-ready product, Wootic is your complete partner.

Agility in Action

1 Sprint = 15 Days
We apply **agile methodologies** (Scrum) to ensure the **proper balance between control, documentation, and activity design.** This allows us to deliver high-quality software with maximum performance. We maintain constant communication with our clients, sharing progress in a straightforward manner without unnecessary task burdens.

LegalFin Team

Our boutique team provides specialized services in Web3, AI, and the Metaverse.

- **LegalFinTech Consulting:** Analysis and design in Web3, legal advisory for DAOs and ADAs.
- **360° Innovation:** Legal structuring, financial improvements, and evaluation of crypto/Web3 business models.
- **Web3 and Blockchain (Asset Tokenization):** Digitization of real-world assets to enhance liquidity and efficiency in financial markets.
- **Evaluation and Design:**
- Legal structure tailored to the business model.
- Appropriate technology for the project.
