Consulting services on Information Security and Cybersecurity

Company

IniciACtiva is a company with more than 12 years in the market.
We specialize in Information Security and Cybersecurity (prevention, compliance, Personal Data, Financial Entity Regulations, ISO/IEC 27001 certification) and Quality Management (ISO 9001 certification).

With experience in both the private and public sectors, we focus on committed work adapted to the needs of our clients.

Problem and Solution

For a company, information is a fundamental and increasingly critical asset. The theft or publication of confidential information, the dissemination of personal data, the loss of critical information, among other problems, can have serious consequences for the company, with direct or indirect economic losses, legal problems and negative influences on the corporate image.

With our team of expert professionals, we help our clients reduce information security risks, with a focus on risk prevention and management aligned with the business.

Services

Advise/Consulting in Information Security Management, Cybersecurity, ISO/IEC 27001, NIST Cybersecurity Framework. Audits an train.

Differential

Our services are tailored to our clients, which added to the commitment and professionalism of our team make us a great alternative.
